

## **International Ideas for March:**

*March 22<sup>nd</sup> is World Water Day!*

- *Using old magazines, and catalogues have the girls cut out pictures of things that use water.*
- *Using muddy water, have the girls find methods to filter out the mud (strainers, cloths, paper, etc.)*
- *Go outside , wear rain gear, and have the girls try to carry a small amount of water in a plastic bucket on their head.*
- *Find the Darfur region on a map of Africa. Discuss some of the water/food problems there.*

## **International Ideas Evaluation:**

**Thanks for taking a look at some of the international ideas this year!**

**The International Committee would like your feedback on**

- 1) what, if any, ideas you used**
- 2) concerns or problems**
- 3) great international ideas that have worked for you**
